### Health Benefits

- Excellent source of vitamin C which helps heal cuts and wounds
- High in fiber and a good source of vitamin K
- Supplies beta-carotene, lutein, and zeaxanthin, that may support eye health.

### DIFFERENT USES

- Can be eaten raw, steamed or sautéed.
- Sugar snap peas have a quick cooking time of only 2-3 minutes on simmer.
- Stir peas into cooked rice or barley to make a pilaf and season with herbs.
- Toss with olive oil, tarragon, grape tomatoes and goat cheese.
- Brighten up soups, stews and casseroles with colorful peas.

### FUN FACT

- Today, only about 5% of peas are sold fresh. Most of the fresh forms include sugar snap peas and snow peas.
- Sugar snap peas are a cross between a garden pea and snow pea.
- Available only as fresh or frozen. High temperatures used for canning would destroy structure of peapod.
- Edible peapods have fibers that go in only one direction, allowing them to be easily chewed.
